PROFESSIONAL SUMMARY

Computer Engineering student with hands-on exposure to Python, SQL, MySQL, R, Power BI, AWS, Linux, and web technologies. Experience with academic projects in web development, machine learning, data analysis, and AI-based applications, with an interest in cloud, data, software development, and cybersecurity.

EDUCATIONAL QUALIFICATION

Pillai HOC College of Engineering and Technology, Rasayani

B.E. Computer Engineering | 2023–27 (Pursuing) | **CGPA: 8.134**

KLE Societies of Science and Commerce, Kalamboli

HSC | 2022–23 | **64.67%**

St. Joseph's High School, Kalamboli

SSC | 2020–21 | **74.40%**

SKILLS

Programming: Python, C, R, SQL

Cloud: AWS

Data & Analytics: Power BI, MS Excel

Databases: MySQL, DBMS

Operating Systems: Linux, Windows, OS Fundamentals

Web Technologies: HTML, CSS

Tools: VS Code, Git/GitHub

Cybersecurity: Networking Fundamentals, Nmap, Cybersecurity Fundamentals

Soft Skills: Adaptability, Teamwork, Communication, Willingness to Learn, Responsible

EXPERIENCE

Data Analytics Intern — Imarticus Learning Institute (26 May 2026 – 03 August 2026)

- Worked with **MySQL Workbench, Power BI, and Google Colab** for database analysis, data exploration, and visualization.
- Developed a **Hospital Database Management System using SQL**, working with relational data and database queries.
- Performed **Exploratory Database Analysis on GitHub Repositories** to examine and derive insights from repository data.
- Developed a **Shopping Trend Analysis dashboard using Power BI** to visualize shopping patterns and present analytical insights.

PROJECTS

Programming Language Learning Website | Group Project

- Developed a web-based programming learning platform; assisted with documentation and technical presentation.

Malaria-Infected Cell Detection | Group Project

- Developed an ML-based application for malaria-infected cell detection; assisted with model testing, documentation, and presentation.

Travel-Mate — Travel Guide Chatbot | Group Project

- Developed an AI travel chatbot expanded into a complete travel website; contributed to development and testing.

Maize Leaf Disease Detection | Group Project

- Developed an ML-based application for disease detection from leaf images; contributed to model testing and evaluation.

CERTIFICATIONS

- **AWSPIRE Workshop Certificate** - PHCET
- **AWS Compute Service Overview** - AWS Skill Builder
- **Amazon S3** - AWS Skill Builder
- **Introduction to Cyber Security** - Simplilearn

LEADERSHIP & ACTIVITIES

- **NSS Volunteer** — Participated in social service initiatives and awareness campaigns.
